- α Fees are calculated using a School Quarter as the smallest increment.
- α Discounts are applied only for yearly, semester and quarterly payments.
***** Discounts only apply for payments made via cash, cheque, or Dragonpay *****

IMPORTANT PAYMENT DATES:

December 16, 2022	50% of Tuition and Capital fees paid (<i>no report card can be given if a family has not paid 50% by December 16, 2022</i>). At least 50% must be paid before the student can begin 2nd semester.
March 31, 2023	100% of Tuition and Capital fees paid (<i>no report card or transcripts can be given if a family has not paid 100% by March 31, 2023</i>).

In order to operate FIA effectively and efficiently, it is critical that all fees are paid by the deadlines. These are the dates you promise to pay the fees. Please do not put the administration in a position where we need to implement procedures or fines due to lack of payment. FIA tuition and capital fees are among the lowest in international schools in Asia.

If at least 50% of tuition and capital fees is not paid by December 16, 2022, the family will be notified that the student may not return for second semester until 50% is paid in full. Remember, full payment must be completed by March 31, 2023. Any families with outstanding tuition and capital fees will need to pay cash for all miscellaneous expenses.

Starting May 1, 2023, **ALL** families will have to pay cash for **ALL** expenses (*including yearbooks, hot lunches, uniforms, etc*). This enables the business office to finalize student accounts. All accounts must be a "0" (zero) balance before the student can receive their final report card or any transcripts.

For children returning for the 2022-2023 school year, if there is a remaining balance on your 2021-2022 account, your children may not start class until your outstanding balance is paid in full. Accounts can be paid by peso or USD cash; peso or USD check; peso or USD wire transfer or Dragonpay (peso only).

****PARENTS SHOULD EXPECT AN INCREASE OF 2-3% in tuition fees in line with the Consumer Price Index (CPI) when estimating future years fees****
